

Assessment Reporting

Student Clubs/Organizations:

Delta College is proud of the selection of co-curricular opportunities available to its students. Among these are registered student clubs and organizations, campus life activities, alternative breaks, intramurals, heritage months and leadership development on a Delta College Campus. Our clubs/organizations provide meaningful experiences to participating members and the community at large. These programs and activities enhance student leadership and personal growth, affording students the opportunity to augment their formal education with experiences outside the classroom.

The below referenced service projects were completed during the 2017/2018-2019/2020 academic calendar. During the COVID Pandemic clubs/organizations were not able to meet in person or do service projects as a group. The one exception was that clubs could put together informational flyers to share with the college community. Clubs/Organizations started completing service projects once again at the start of the 2022/2023 Academic Year. One other challenge is getting all reflections from every group once they have been approved to complete a project.

Service Projects

Club	Project Description	# of Students	Reflection
Astronomy	Student Astronomy Night	8	Students worked together collectively to provide an experience where community members and other college students could collectively learn more about the galaxy.
Astronomy	Great Lakes Star Gaze	9	Students came together as a team and helped facilitate the Great Lakes Star Gaze program.
Astronomy	State Wide Astronomy Night	3	The Astronomy Club worked along with other groups to implement a state wide astronomy night.
Astronomy	Astronomy Day	7	Students worked together as a team to promote astronomy around the campus.
Astronomy	Holidays in the Heart of the City	9	Students volunteered in the community to help with the Holidays in the Heart of the City
Chemistry	Delta College STEM Festival	4	Students volunteered to assist with different STEM Events during the Delta College STEM Festival
Chez les Napoleon	Midland Shelter House	5	The students came together and provided much needed items for an organization in

			need. The students realized the impacts that a simple donation can make for individuals in need.
Chez les Napoleon	Teaching 5th graders French	7	The students learned the importance of interacting with young kids and the importance of teaching the new generation
Chez les Napoleon	Teaching Emergency French	4	The students learned that the opportunity to teach anything helps students master the material on a deeper level
Citizens in Action	Classroom Presentation on Voting	3	The club members learned that many students are willing to stand up for what they believe in and take part in their nation's democracy
Citizens in Action	Debate Watching Party with Bingo	3	The students learned that CIA needs to get more involved with students to get students more involved
Citizens in Action	Voter Registration Drive	4	The students learned how important it is to encourage fellow students to be civically engaged and politically aware
Citizens in Action	Times Talk	6	
Citizens in Action	Educating Public on Sexual Harassment	3	The students learned what defines sexual assault and how important it is to report it
DECA	Cleaning out Delta's Closet	3	The value of volunteering for a great cause
DECA	Cleaning out Delta's Closet	5	The students learned how to help the Delta College campus community in a way that applies to the DECA business club
DECA	Blanket Tying	12	The students learned that if we all come together, we can accomplish great things and help the community
DECA	Blanket Tying	12	The students learned that if we all come together, we can accomplish great things and help the community
Cross Country	Help at Cross Country Meet	3	The members who volunteered enjoyed their time and the organization was pleased with the extra help
Cyber Defense	STEM Festival	4	The students realized they need to bring more awareness to the community about cyber defense.

Cyber Defense	STEM Festival	5	The students realized just how important it is for organizations to have volunteers to help facilitate a program.
Delta College Military Association	Donated Baked Goods	7	The members were able to work together to bring awareness to veterans and help others
Delta College Military Association	Paint Homeless Shelter	6	Student members worked together as a team to help outside community members, and more importantly realized how big of a difference they could make in such a small amount of time
Delta College Military Association	Veteran's Grand Opening	9	Student members had a chance to come together and support one another
Delta College Military Association	Salvation Army Red Bell Campaign	8	The student group really enjoyed bringing this experience to the public, and felt accomplished with the opportunity because it let them work together for the benefit of a good cause
Delta College Military Association	Knights of Columbus Labor	8	The student members felt that they made a significant impact for volunteering as labor for the Knights of Columbus
Delta College Military Association	Collect DVD's for Vets	2	Student members came together to collect as many DVD's for veterans but also worked with the College Community to create more awareness.
Delta College Military Association	Awareness to Deployed Service Members	6	The student members provided awareness materials about being deployed and the service members that are currently. This made them feel more connected to their service units.
Delta College Military Association	Renovate Room for Homeless Shelter	9	The student members felt a great sense of pride in helping others and while giving back to the community.
Delta College Military Association	Clean Up Local Vet's Yard	5	The student members felt very good about responding and helping others in need in the community.
Economics	GLB Job Fair	3	The club members and students had a great time together. The club members volunteered to assist students with the fair.
Environmental	Picking Wildflower Seeds	7	The students got to learn about wildflowers and got to network with other individuals from the community.

Environmental	Trash Pick Up Around Delta	7	The students learned that picking up even the smallest piece of trash can add up to gathering multiple pounds of trash. The group also realized the importance of volunteerism.
Environmental	Distributing Awareness Campaign Flyers	7	The flyers were great for the club's publicity and gained a few new members
Environmental	Give Out Tree Seedlings	9	The student members were able to share the importance of native tree species to a great amount of students and faculty while providing them with a tree to plant.
Environmental	Clean Nature Trails	3	The students realized the importance of volunteerism and the importance of awareness. Many members were very surprised by the amount of trash.
Fitness	Delta College Race to College	2	The students learned how to cooperate with different groups to achieve a common goal
Fitness	STEM Festival	2	The students earned that not everyone learns the same way
Fitness	STEM Festival	3	The students realize that exercising helps people learn better
Fitness	Delta Dodgeball Game	5	The students learned that teamwork is important while planning any activity
Fitness	Delta College Race to College	3	The students learned how to be flexible during times of complication
Fitness	Midterm Dodgeball Game	3	The students learned that time management is important during a planning process
Honors/ Phi Theta Kappa	Mid Michigan Haunted Maze	2	The students feel that teamwork was imperative for this project and that giving back is just as important.
Honors	50/50 Raffle at Spirit Game	5	The students learned that people are more generous than sometimes given credit for, and that our service was more appreciated than we anticipated
Honors	Help CAN Council Fundraise	4	The student members learned they can have fun while volunteering for a good cause
Honors	Pass the Can at Spirit Game	3	The students learned that people are more than willing to give to a good cause

Honors	Help CAN Council Fundraise	5	Students understand that sharing the idea of community service, raising awareness about child abuse and neglect, as well as informing people of the services provided by the CAN Council is important for the entire community because it brings awareness and will hopefully help alleviate abuse in the future.
Honors	Kidsfest	3	Students learned the importance of teamwork
Honors	Help CAN Council Fundraise	4	The students were able to see peoples generosity, and realize the importance of service
Honors/ Phi Theta Kappa	Collect Hygiene Products	4	Student members realize throughout this volunteerism the number of individuals that struggle to purchase hygiene related items and the importance of helping people get these items.
Information Technology Systems	PC Clinic	8	The students understand the importance of helping others.

Information Technology Systems	PC Clinic	8	" "
Information Technology Systems	Job Fair	5	The students understand the importance of volunteerism and how that can really help an event or harm it.
InterVarsity	Donate Food to Food Pantry	3	The students learned to work together to organize and provide its free service to Delta and the community members
InterVarsity	Operation Christmas Child	5	The student members really bonded as a team and now understand the importance of serving and helping others
InterVarsity	Operation Christmas Child	5	The student members really bonded as a team and now understand the importance of serving and helping others
InterVarsity	Serving Food	3	The students understand the value of serving the community and the extent of need in the Saginaw area
InterVarsity	Popcorn at Math Competition	3	The students volunteered in the community and felt wonderful about helping others that needed some assistance in running a program
InterVarsity	Blanket Tying	5	The students understand more about the CAN Council and the need the organization has for volunteers
Love Your Melon	Volunteering at Johnson's Pumpkin Patch	6	The students understand that even though they volunteered for another organization that they can still spread awareness about their cause as well as assisting.
Love Your Melon	Breast Cancer Walk	12	The students learned more about breast cancer and the importance of raising awareness
Love Your Melon	Hospital Visit	5	The students had a great experience making children feel joy/ happiness just by spending time with them and being there
Love Your Melon	Caro Pumpkin Parade	22	The students realized that it means the world to people when they feel supported

Love Your Melon	CAN Collection	14	The students understand just how much the CAN Council does for the community and the importance of giving back to the community.

Love Your Melon	Red Wings Game	26	The students learned new ideas on how to spread awareness and that friendships are valuable
Love Your Melon	Midland Santa Parade	26	The students learned they can have fun while spreading awareness of pediatric cancer
Love Your Melon	Midland Santa Parade	10	The students learned that their group is very capable of doing great things
Love Your Melon	Blanket Tying	30	The students understand the importance of working as a team to help others in need.
Love Your Melon	Volunteering at Rock Youth Center	7	The students understand that some organizations are much needed in the community but without the help of volunteers they would not exist
Love Your Melon	Midland Santa Parade	10	The students realized the importance of spreading awareness about cancer and the number of individuals that are not aware
Love Your Melon	Red Wings Game	10	The students understand the importance of networking and creating relationships.
Men of Delta	Teaching Students Benefits of Exercise	7	The project helped the Men of Delta participants understand why they started college in the first place
Men of Delta	Christmas Spirit to Elementary Kids	3	The members helped spread awareness about Christmas and that it is about

			children and offering help to those who need it most
Alpha Delta Nu- Nursing	Volunteering at Bay Arenac ISD	8	The students learned the importance of volunteerism.
Alpha Delta Nu- Nursing	Hosting Bone Marrow Drive	20	The students understand the importance of awareness activities and then creating an opportunity for community members to make donations to save lives.
Alpha Delta Nu- Nursing	Saginaw Medical Health Fair	11	The students understand that events are not as successful without a strong group of volunteers.
Alpha Delta Nu- Nursing	Judges at HOSA Competition	5	The students learned the importance of understanding procedures when helping judge a competition and the importance of giving back to the community.
Alpha Delta Nu- Nursing	Blanket Tying	8	The students understand more about the CAN Council and the need the organization has for volunteers
Alpha Delta Nu- Nursing	Judges at HOSA Competition	8	The students learned the importance of understanding procedures when helping judge a competition and the importance of giving back to the community.
Alpha Delta Nu- Nursing	Blanket Tying	1	The students understand more about the CAN Council and the need the organization has for volunteers
Alpha Delta Nu- Nursing	Judges at HOSA Competition	8	The students understand that really associating yourself with a group creates a culture of belonging. HOSA treats them now as part of their entire team and they do not feel like volunteers but more like partners.
Phi Theta Kappa	Collect President Speaker Evaluations	3	The students realized the commitment in takes in providing a program and the importance of volunteerism.
Phi Theta Kappa	Campus Blood Drive	5	The students understand that volunteerism is important and that without assistance some organizations would not exist.
Phi Theta Kappa	Kidsfest	5	Student members learned how being able to be creative and work outside their comfort zone is okay as long as they trust in their team and work together.
Phi Theta Kappa	President Speaker	3	Students understand the importance of volunteerism.

Pre-Pharmacy	CAN Collection	5	The students understand just how much the CAN Council does for the community and the importance of giving back to the community.
Pre-Pharmacy	Sacred Heart 5K	3	The students understand that awareness is key and collaboration for large scale events is important for the success of any event.
Physical Therapy Assistants	Blanket Tying	6	The students understand the importance of working as a team throughout this program.
Physical Therapy Assistants	Rifle River Clean Up	14	The student club learned how important the Earth and its resources are by seeing pollution first hand
Physical Therapy Assistants	Collect Items for Midland Foster Closet	10	The students learned that being able to serve these children was a lesson in understanding the difficulties of others
Physical Therapy Assistants	Rifle River Clean Up	8	The students successfully cleaned up a little corner of their planet
Physical Therapy Assistants	Chestnut Hill Field Day	4	The students learned that physical activity needs to be promoted from an early age
Physical Therapy Assistants	Collect Books for Africa	10	The student club was able to collect three large boxes of books for community libraries and how important that was for the libraries participating.
Physical Therapy Assistants	Collect Donations for Goodwill Inn	16	The students felt as if this was a success because they were able to provide for people in Michigan who were in need
Physical Therapy Assistants	Blanket Tying	19	The students were able to work together as a team and provided the most blankets out of all the clubs at Delta
Physical Therapy Assistants	Rifle River Clean Up	20	The students practiced how to work as a group to do a good deed for another business
Physical Therapy Assistants	Project SHARED	17	The students learned about outreach to the community and how to fit assistive devices to patients
Physical Therapy Assistants	Project SHARED	16	The students understand the importance of getting involved with the community and local hospitals

Physical Therapy Assistants	Project SHARED	20	The students understand the importance of getting involved with the community and local hospitals
Physical Therapy Assistants	Project SHARED	17	The students understand the benefits of having additional resources to help individuals who lack insurance or whose insurance does not cover everything
Physical Therapy Assistants	Collect Supplies for Franklin Avenue Rescue Mission	14	The students learned the joy of helping others
Physical Therapy Assistants	Project SHARED	14	Club members learned about local patients' needs and the importance of giving back to the community
Physical Therapy Assistants	Color Run	10	The students achieved their goal, they brought people together and everyone had a blast
Physical Therapy Assistants	Blanket Tying	19	The students developed civic engagement skills along with interpersonal and organizational skills
Physical Therapy Assistants	Amazing Grace Donation	19	The students realized just how much the Delta College community cares about others.
Physical Therapy Assistants	Project SHARED	20	The teaches the members how to react to a person that is asking for help
Physical Therapy Assistants	Color Run	20	The students learned the importance of teamwork.
Society of Hispanic Leaders	Community Center Clean Up	6	The student members understand that being involved with their community is key to developing views
Society of Hispanic Leaders	La Union Civica	5	The students learned that supporting each other is important
Society of Hispanic Leaders	Tamale Taste Off	4	The students learned how to bring a community together
Society of Hispanic Leaders	Mexican American Council	4	The students were able to see how large the Saginaw Community is

Society of Hispanic Leaders	La Union Civica	6	The students gained an understanding of how Hispanic events are important to the Hispanic community and bringing awareness
Society of Hispanic Leaders	Hispanic Heritage Month Table	6	The students understand that it is important to help inform and educate the student body
Society of Hispanic Leaders	Tamale Taste Off	6	Student members realize the importance of teamwork
Society of Hispanic Leaders	Tamale Taste Off	5	Student members realize the importance of teamwork
Delta College Student Nurse Association	STEM Program	7	The student members were able to inspire children to become nurses and possibly in the future join DCSNA
Delta College Student Nurse Association	STEM Festival	6	Students learned that the community still doesn't know or understand about the DC nursing program
Delta College Student Nurse Association	McNally House	12	Students gained appreciation for the hardship that some families face when their loved ones are hospitalized far from home
Delta College Student Nurse Association	Volunteering at Old Town	4	The students learned that food discrepancies in our community are high and that the face of hunger may look different than what they expected
Delta College Student Nurse Association	McNally House	9	Students were able to connect and network while helping members of the community
Delta College Student Nurse Association	Old Town Ministries Soup Kitchen	9	The students grew together as a group and came together as a community
Delta College Student Nurse Association	YCMA Spooktacular	4	The students really enjoyed themselves and loved to see all the children laughing and enjoying themselves

Delta College Student Nurse Association	Supply Drive	20	The students gained insight into how natural disasters impact every aspect of daily life
Delta College Student Nurse Association	Donate Money to Local Charity	20	The students understand the importance of helping local charities within the community.
Delta College Student Nurse Association	Castle Museum	8	The club understands the importance of volunteerism
Delta College Student Nurse Association	Be The Match	19	The students were able to obtain potential donors to save a life and truly got to understand the impacts that has on different family members
Delta College Student Nurse Association	Meal Donation to 200 plus Families	4	Students learned that there are struggles beyond the ones in nursing school
Respiratory Care	STEM Festival	6	The students provided educational opportunities for young middle school students and young families about STEM.
Respiratory Care	Domestic Violence Collection	2	The students provided an opportunity for Delta students to donate items to the Bay Area Women's shelter

Phi Theta Kappa Project/Peer Mentoring:

The College Project for Phi Theta Kappa is designed to help develop and strengthen a supportive working relationship between the chapter and the college administration. Each chapter can receive up to a 5 star rating and the implementation of a college project is mandatory for a chapter to receive the top rating. Support from administration is essential for all chapters and the project is key in creating an opportunity for chapter members and administration to work together. The college project is a way for each chapter to become one of the college's best allies. Delta College's Chapter developed and implemented the Next Step Pioneer Peer Program to help support the mission of the college. The mission, for the college,

is that Delta College collaborates to deliver and sustain an enriching education that empowers our diverse and inclusive community to achieve their personal, professional and academic goals. The Next Step Pioneer Program supports the mission by providing resources for students that will help them navigate through their college experience while achieving their personal, professional and academic goals.

The Next Step Pioneer Peer Program has been a key focus for the past 3 years and has allowed the chapter an opportunity to engage incoming students while creating an environment that is beneficial in helping them be successful and complete their educational goals.

The student mentors provide to their peers:

- helpful information about specific dates, scholarship and grant information, financial aid information and other college wide resources
- provide students with an individual that they have an opportunity to engage with and provide relationship building with from the beginning of their college experience
- created opportunities for incoming students to navigate their college experience with a designated champion who is focused on helping them be successful
- provided students with access to administration on campus

Number of Students Impacted:

- the inaugural year, the 2020/2021 academic year, had 72 students participate as mentees and 12 student mentors
- the 2021/2022 academic year increased by 56 students with 5 new student mentors
- the 2022/2023 academic year increased by 70 students and 13 new student mentors
- students said they learned the importance of staying positive and believing in yourself

Outcomes Noted by Students:

- felt connected because they always had a person they could reach out too
- students felt engaged in extracurricular programs
- students felt that they were successful in classes
- students during the COVID pandemic felt that this experience made their college experience more real because they had someone to reach out to about the institution

Challenges:

- the project started during COVID and ran fully online for the first two academic years
- engaging students online was an initial challenge but the student mentors created opportunities that were successful
- keeping all students, student mentors and mentees, engaged in the process throughout the fall/winter semesters
- administration staying engaged throughout the year with the process
- record keeping by individual student mentors

Student Leadership Academy:

Student Leadership Academy Expectations

The Student Leadership Academy is continually evolving to provide opportunities for students to gain leadership skills and abilities that promote success for them in their college journey and also as they navigate throughout their lives. The academy started off as a group of students and faculty that would meet monthly to discuss a topic that related to leadership. Since then, the academy has developed into a multi-faceted program that provides opportunities for all students to be involved in gaining and strengthening their leadership abilities. The students in the academy go through a leadership training that assists them in the development of their leadership skills by providing challenges to help them realize and understand their full potential. All Student Leaders also create opportunities for others who are not part of the academy develop leadership skills as well. The students have also been instrumental in creating a Homecoming Week for the college along with providing middle and high school students with a diversity symposium where they provide presentations to these students on many different topics. These students work from the very beginning of the planning stages and implement each of these programs while providing other opportunities to get students engaged in leadership development. The Student Leadership Academy strives in all areas by promoting the values of respect, accountability, open communication, sacrifice and fun. We have implemented a pre/post survey to track assessment of learning outcomes for the 2022/2023 academic year.

The Student Leadership Academy has had challenges as well. COVID impacted the group dynamics in great detail but after the initial shock of moving everything online the group adapted to a new normal. The academy students for the 2020/2021 and 2021/2022 academic years had to do everything virtually. This is no way slowed them down, one item that was evident though was that participation was not as consistent with the group when it was online. When the group was surveyed it was noted that students felt that it was not as big of a deal if they missed an online forum because they were able to go back and watch the recording. The positive that was found though was that if individuals were unable to meet specific times they were still able to participate just in a different way that had not been thought about before.

Learning Outcomes for the Student Leadership Academy

1. For students to understand their ability to initiate change and become change agents.
2. For students to understand their overall awareness of leadership, how to use their voice, how to speak up for change and how to be involved.
3. For students to be involved and engaged on campus.

Expectation for the Student Leadership Academy

Demonstrate Integrity, Character and Respect

- Consistently exhibit a high standard of integrity and respect
- Resolve conflict in an open and direct manner
- Communicate effectively

Achieve Outstanding Results

- Set clear goals and priorities
- Deliver on commitments
- Make timely, high-quality decisions

Inspire and Develop People

- Actively develop leadership qualities with peers, teams/organization, and one's self
- Inspire a high level of commitment and performance
- Create a culture of respect where diversity and inclusiveness are valued
- Collaborate effectively across Delta boundaries.

Lead Positive Change

- Respecting one another regardless of our differences is a core value of the Student Leadership Academy. All members of the leadership model are expected to respect each other's ideas and opinions, and are encouraged to hold each other accountable.
- Each member will respect facilitators, faculty, staff and everyone at Delta College

Women's Inclusive Network:

This group was developed to create a safe place for woman to develop emotionally, intellectually and become stronger leaders. These students, staff and faculty go through a yearlong program that creates a supportive environment that then inspires and empower them to assist in increasing their self-esteem, positive relationships and becoming more self-aware. This group has consistently changed over the past 4 years and continues to develop. The mission of this program is to support, inspire and empower the women of Delta in a safe space to foster self-esteem, positive relationships and self-awareness. This group was developed to help the woman of today in their development of becoming strong and effective leaders. We have implemented a pre/post survey to track assessment of learning outcomes for the 2022/2023 academic year.

There have been some challenges which also have opened the door to opportunities. During the COVID Pandemic all meetings were held virtually. We as a group agreed that it was much more difficult to connect through an online platform than in person but we were also still able to meet which was imperative. The group dynamics have changed with a smaller attendance base since the pandemic but we will continue to learn, make changes and grow. We also understand as a group that having an online option is imperative to make sure that barriers are removed such as transportation for people to participate. Some individuals are full remote but still seek these experiences and since the pandemic we have observed that. Also, another challenge is people staying connected and attending meetings. We have had many changes in attendance since the pandemic and we are still focusing on the why and how to create a new established sense of belonging.

Learning Outcomes for the Women's Inclusive Network:

1. To learn to connect with other women who will help empower, build trust, build positive relations and self-awareness in a safe space.
2. To help women understand their strengths and how these strengths can be used in a positive way to gain influence over others and make changes when they are needed.
3. To help women understand that they cannot be healthy if they never invest in themselves.
